

VOGUE GIRL Moves Further into the Digital World.

VOGUE GIRL has been totally renewed as a multi-media publication for "Generation C", who have a totally new lifestyle and sense of values. Because our core target audience is focused on the generation known as "smartphone natives" (19-25 years old; never knowing a time before mobile phones, or smartphones), we have cancelled the print magazine edition which has been issued twice a year up to now, in order to concentrate all our resources on a "Digital Device Only" system that maximizes communication with this audience.
